Learning Management System (LMS)

Counselling Process

Mode of Counselling :- Asynchronous

Brief describe the provision in LMS to be used by HEI :-

The LMS of ADBU-CDOE provides a seamless digital learning experience for students, faculty, and administrators. Students can access course materials, submit assignments, take quizzes, attend live classes, participate in discussions, and track grades. Faculty can manage courses, upload content, create exams, monitor student progress, and interact via discussion forums. Administrators handle user management, course supervision, analytics, and technical support. The platform offers automated grading, real-time notifications, and a digital library, ensuring an interactive and efficient learning environment. With robust tools for engagement and assessment, the LMS enhances online education through accessibility, convenience, and academic excellence.

Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :- <https://online.dbuniversity.ac.in/>

Assessment mechanism	LMS provides a robust assessment system with automated quizzes, timed exams, assignments, and project submissions. Faculty can create multiple-choice, subjective, or descriptive questions with autoevaluation or manual grading. Plagiarism detection ensures academic integrity, while real-time tracking, analytics, and feedback enhance evaluation. The Controller of Examinations (CoE) at ADBU oversees. ODL/OL programme exams, maintaining the same standards as conventional courses. Exam setting, conduct, and evaluation follow uniform guidelines. Additionally, students must maintain a minimum of 75% attendance in online or offline sessions to be eligible for exams, ensuring active engagement and accountability.
----------------------	---

Identified technological interface and interoperability	The LMS is built on a scalable and secure technological interface, ensuring seamless learning and administrative functions. It supports interoperability through integration with licensed version of video conferencing tool, plagiarism detection software, and cloud storage for content management. The system is compatible with multiple devices (PC, mobile, tablet) and operating systems, providing a user-friendly experience. API support allows integration with external databases, student information systems (SIS), and digital libraries. With role-based access, secure authentication, and data encryption, the LMS ensures smooth, efficient, and secure academic operations.
Learner's Authentication Requirements	1. User Logins are authenticated with email and mobile number verification at registration phase. 2. Each subsequent login verified through a combination of self-created User ID and password subsequently verified using OTP on email or SMS 3. Each login IP and Geo location is tracked.
Learner Registration - through a web application	https://apply.dbuglobal.com/
Active Engagement of the Learners along with Analytics for active engagement of learners and Reporting	The LMS promotes active learner engagement through interactive discussion forums, live classes, quizzes, and collaborative assignments. Real-time notifications, progress tracking, and AI-driven recommendations enhance participation. Analytics tools track attendance, engagement levels, and course completion rates, providing faculty with insights into student performance. Dashboards display key metrics such as time spent on modules, quiz scores, and interaction frequency. Automated reports help faculty and administrators identify at-risk students, optimize course delivery, and improve retention. Detailed reporting ensures data-driven decision-making for enhancing the overall learning experience and academic success.

Online fee payment gateway to allow for payments using Credit / Debit Cards as well as all available Indian Net banking systems. 2. Fee payments also accepted via Bank Transfer with Online Submissions of Proof of Payment for account entry matching and reconciliation.
Tracking the delivery of a Course or programme	The LMS offers comprehensive tracking of course and programme delivery through built-in monitoring tools. Faculty can track content completion, student progress, and engagement levels using interactive dashboards. Automated attendance logs, participation reports, and time-spent analytics help ensure students are actively involved. Course milestones, assignment submissions, and quiz performance are monitored in real-time, allowing faculty to intervene when necessary. These insights ensure structured course delivery, timely interventions, and continuous improvement in online learning programmes.
Technical Know-how or Skills Requirements	The LMS is designed for ease of use, requiring minimal technical expertise. Basic digital literacy, such as navigating online platforms, uploading/downloading files, and using discussion forums, is sufficient for students. Faculty should be familiar with content creation, quiz/exam setup, and grading tools. Administrators require knowledge of user management, data analytics, and system configurations. The platform supports training sessions, user guides, and helpdesk support to assist all users. Compatibility with multiple devices and an intuitive interface ensure seamless accessibility, making it user-friendly for diverse technical skill levels.

Briefly write on ICT facilities available/ to be ready dedicated for the implementation of Online Courses :-

The LMS at online.dbuniversity.ac.in is fully equipped with advanced ICT facilities to support seamless online course implementation. It features high-speed internet, a cloud-based infrastructure, and secure data storage. The platform integrates multimedia content, live video through licensed version of video conferencing tool, AI-driven analytics, and automated grading. Dedicated servers ensure scalability, while mobile and desktop compatibility enhance accessibility. Security measures include authentication protocols and plagiarism detection. Additionally, digital libraries, student management systems (SIS), and technical support services ensure a smooth, interactive, and efficient online learning experience for all users.
