

Report on Seminar on ‘Social Behaviour Change: Promotion of Routine Immunization and Climate Change & Environment Sustainability,’

Date: 21/06/2024

Objective

- To raise awareness and encourage Social Behaviour Change (SBC) around key issues such as Routine Immunization, WASH (Water, Sanitation, and Hygiene), and Environmental Sustainability.
- To equip participants with knowledge and advocacy tools for promoting health and sustainable practices within their communities.
- To foster collaboration among academic institutions and partners like NE SBC Alliance, UNICEF, and Don Bosco University.

No of Participants: 60 students

Program Highlight

- **Keynote Address:** Delivered by Mr. Daisinlung Sebastian Kamsuan, alumnus of Salesian College.
 - Emphasized the importance of WASH practices for community health.
 - Advocated for Routine Immunization as a critical preventive healthcare measure.
 - Discussed the urgency of addressing Climate Change and Environmental Conservation.
- **Interactive Sessions:** Included panel discussions, participant engagement, and multimedia presentations.

Outcome

- Participants gained enhanced understanding of SBC approaches in the context of public health and environmental sustainability.
- Strengthened commitment among youth and community stakeholders to promote Routine Immunization and WASH awareness.
- Raised consciousness on individual and collective responsibility towards environmental conservation.
- Seminar concluded with a **Call to Action**, urging attendees to adopt and promote sustainable, health-conscious practices in their communities.
